Corporate Finance Special

We are delighted to welcome Maven Capital Partners, one of the UK's most active Private Equity investors to present at the FD Network event on what they look for in a business prior to investment and what they do post investment. Maven have a long established presence in the North and recently opened an office in Preston to provide investment resource to their current portfolio together with equity and debt finance to support growth aspirations of SME's across the region.

To complete the picture Stephen Gregson, Corporate Finance Director from MHA Moore and Smalley will also present on some of the key elements a business needs to address to become attractive to potential funders.

This will be followed by some workshops and group discussions on relevant topics for Finance Directors in the area.
